

**Amendments to the Specification**

***Please replace the paragraph [0004] on page 2 bridging page 3 with the following amended paragraph:***

Referring to FIG. 1, a laundry dryer according to a related art is comprised of a cabinet 26 having a laundry entrance 28a centrally formed in a front cabinet cover 28; a rotatable drum 8, horizontally secured within the cabinet, for holding laundry and having an open end and a closed end; and a front support 12, disposed between the drum and the front cabinet cover of the cabinet, for rotatably supporting the open end of the drum while allowing access to the drum's interior through a laundry opening 12a, which is centrally formed in the front support and has a slightly greater diameter than the laundry entrance of the front cabinet cover of the cabinet. The entrance 28a of the front cabinet cover 28 of the cabinet 26 receives a door 38 having a door glass 38a for viewing the interior of the drum 8 via the laundry hole 28a of the front support 28 ~~laundry hole 28a of the front support 28~~ laundry opening 12a of the front support 12. The front support 12 is fixed to the front cabinet cover 28 using a plurality of coupling members 40, and then the front cabinet cover is mounted to the front of the cabinet 26 to complete the assembly, such that the front support is indirectly fixed to the cabinet via the front cabinet cover.

***Please replace the paragraph [0025] on page 6 bridging page 7 with the following amended paragraph:***

Referring to FIGS. 3-5 a laundry dryer according to the present invention is comprised of a cabinet 76 having a laundry entrance 78a centrally formed in a front cabinet cover 78; a rotatable drum 58, horizontally secured within the cabinet, for holding laundry and having an open end and a closed end; and a front support 62, disposed between the drum and the front cabinet cover, of the cabinet, for rotatably supporting the open end of the drum while allowing access to the drum's interior through a laundry opening 62a, which is centrally formed in the front support and has a slightly greater diameter than the laundry entrance of the front cabinet
